201

Dear GWR:

I don't know what your reaction to Munich's assessment of [ ] was but I was very upset, disappointed, and more than a little incredulous. Headquarters undertook some sort of an investigation on the case, the outcome of which I have not yet heard. Had I known that such a review was to take place I would have submitted the attached document sooner. Enclosed herewith is a complete set of copies of my analysis of the whole business. I have made no final designation (i.e., as a dispatch) for two reasons:

- a) I am afraid I was none too "politic"--I pulled no punches;
- b) I felt that any official Station reaction to the whole situation should better come from you.

Therefore, I am forwarding this to you for whatever use or disposal you may care to make. You can extract parts of it, give it a dispatch number, or burn it, whatever you think most appropriate.
